

# **Renovation, Repair & Painting (RRP) Certification Course**

## **May 19, 2016, 8:00 a.m. - 5:00 p.m.**

This course teaches you how to comply with the EPA RRP rule and the HUD Lead Safe Housing Rule, and how to implement lead-safe work practices.

EPA's Renovation, Repair and Painting (RRP) rule (40 CFR 745) requires that renovations conducted for compensation, must be conducted by Certified Firms using Certified Renovators. Renovation firms that wish to work in pre-1978 homes and child-occupied facilities must apply to EPA to become certified.

This one-day course includes both class time, where you learn the requirements and regulations, *and* hands-on activities working under the guidance of certified instructors. Upon satisfactory completion of the course, you will receive your RRP certification which is valid for five years before renewal is required.

The course will be conducted by Professional Training Associates, Inc. (PTA) at their facility in Duquesne, PA. PTA's experienced instructors teach a wide variety of environmental and safety courses. All instructors are approved by the PA Department of Labor to teach asbestos and lead-based paint training courses. Some of its major clients include General Electric, Siemens Power, PPG, Inc., and the General Services Administration.
